

# GWME-7.1.0-4 - Downtime scheduling patch

## Problem

The downtime scheduling tools deny access to users who are in more than one membership.

This issue was tracked in GWMON-12486.

## Solution

We have provided an updated war file which fixed the access issue.

Download the patch and extract it into place:

Name	Size	Creator	Creation Date	Comment
 TB7.1.0-4.rstools.tgz	17.68 MB	NotSupportContact-Mark Carey	Oct 06, 2016 17:42	MD5SUM: 4ea7e4cd67eb7982b13a02a54232cba0

```
tar czvf 7.1.0.nms-rstools.orig.tgz \  
  /usr/local/groundwork/foundation/container/jpp/standalone/deployments/nms-rstools.war \
