

How to view memberships

WAS THIS PAGE HELPFUL? [Leave Feedback](#)

Overview

Memberships are managed by a GroundWork Administrator (e.g., admin/admin) and accessed from the toolbar option **Group > Organization**. The Portal Administrator (e.g., root/root) can also manage memberships. The **Membership Management** tab lists the system memberships. Within each membership the checked boxes indicate permissible portlets and actions. Selected membership properties affect all users associated with the membership.

 System default memberships should not be removed.

Steps

VIDEO

1. Log in to GroundWork Monitor as an Administrator (e.g., admin/admin).
2. Hover over **Group > Organization**, and select **Users and groups management**.
3. By selecting the **Membership Management** tab, administrators can view, edit, or remove any of the existing memberships. There may be multiple pages. Selecting the edit icon exposes a membership settings in the lower half of the screen.
