

Development Corner

This page gives you the materials for custom portlet development in GroundWork, as well as some information on creating custom reports. The tutorial page and PDF is intended for Java developers. If you want an orientation, take a look at the presentation. We will be happy to answer your questions if you leave comments here, and we would really like to see what you come up with as far as custom portlets. Share them here!

Name	Size	Creator	Creation Date	Comment
 Custom Development for GWMEE.ppt	541 kB	NotSupportContact-Mark Carey	Jan 28, 2013 15:53	Engineering Partner presentation
