

How to find Web Services password for Cloud Hub

WAS THIS PAGE HELPFUL? [Leave Feedback](#)

Overview

When setting up a GroundWork Cloud Hub connection you will need to provide the *GroundWork Web Services* password which you can find on the license page.

Steps

1. Go to **GroundWork Administration > GroundWork License**.
2. Along the right side of the screen, the password is listed under the section **Webservices API Account Info** and labelled **Token (encrypted)**.
