

How do I know the total of used devices

WAS THIS PAGE HELPFUL? [Leave Feedback](#)

Q: How do I know the total of used devices?

A: Go to **Configuration > Maintenance**, and select **Device Cleanup**. A summary of devices will be listed:

Example:

summary

```
=====
Number of devices Total: 253
Number of devices referenced by hosts: 232
Number of devices NOT referenced by hosts: 21
Number of devices probably created by traps: 0
Number of devices probably created by syslog messages: 0
=====
Total Unused Devices: 21
```
